

Writing portion of the final test

You answer to each of the two questions should be written in Chinese characters. Each answer should contain a minimum of 25 characters. Answers should be written on the answer sheet provided.

Your answers must be written in your own words. No credit will be given for a response that is copied or substantially the same as material from other parts of the exam. HOWEVER, you are encouraged to look back at the exam to use characters as a writing guide.

ALSO, if you can not remember how to write a character that is necessary to write a sentence, you may write that word in pinyin. However, the pinyin will not count towards the 25 character requirement.

Any NAMES of people can be English, but English names will not count towards the 25 character requirement.
